

U.S. Department of Energy Orders Self-Study Program

DOE O 210.1

PERFORMANCE INDICATORS AND ANALYSIS OF
OPERATIONS INFORMATION

ALBUQUERQUE OPERATIONS OFFICE

**DOE ORDER O 210.1
PERFORMANCE INDICATORS AND ANALYSIS OF OPERATIONS INFORMATION
FAMILIAR LEVEL**

OBJECTIVES

Given U.S. Department of Energy (DOE) Order O 210.1, you will be able to:

1. list the objectives of DOE Order O 210.1, Performance Indicators and Analysis of Operations Information,
2. state the requirements for all DOE elements specified in this Order, and
3. state the requirements for contractors specified in the Contractor Requirements Document (Attachment 1 of this Order).

RESOURCES

DOE Order O 210.1, Performance Indicators and Analysis of Operations Information, Change 2, 5/1/96

INSTRUCTION

The DOE Order O 210.1, Performance Indicators and Analysis of Operations Information replaces DOE Order 5480.26, Trending and Analysis of Operations Information Using Performance Indicators.

The DOE Order O 210.1 is three pages long, including a one-page attachment. Due to the concise nature of this Order, this module will be limited to one level. To complete this module and satisfy the requirements for qualification, follow the instructions below.

1. Obtain a copy of DOE Order O 210.1. Copies of the Orders are available on the Los Alamos National Laboratory Website at <http://iosun.lanl.gov:1776/htmls/directives.html> or through the course manager
2. Review Section 4 of the Order and the Contractor Requirements Document (Attachment 1).
3. When you are ready, ask the course manager for the criterion test.

You will not be required to complete a practice for this module.
